1 Plaintiff pleads, on behalf of himself and the American public, to not dismiss this case and
2 to provide legal aid to Plaintiff. This case is very important to America, to Democracy and to the
3 future of Justice in America.

4 Plaintiff's father was a forest ranger with the U.S. Forest Service and helped complete the

9 Above that, When federal investigators and the nation's top investigative journalists reveal to
10 you that your politicians and government officials at various agencies, particularly the Department
11 of Energy, HHS and the White House, were either: financed by; friends with; sleeping with; dating
12 the staff of; holding stock market assets in; promised a revolving door job or government service
13 contracts from; partying with; personal friends with, photographed at private events with;
14 exchanging emails with; business associates of, or directed by; applicant's business adversaries; or
15 the Senators and agency politicians that those business adversaries pay campaign finances to, or
16 supply political digital search manipulation (ie: Google & Facebook supply web manipulation
17 rigging) services to. For example, in one of our biggest cases, every person involved in reviewing,
18 or managing the Department of Energy program worked for, or owned, our arch competitor, in total
19 violation of RICO and anti-trust laws.
20

21
22 We sued the government for corruption and Supreme Court Justice Brown agreed with us
23 that the Department of Energy and White House WERE 'infected with corruption' and we won our
24 remand case. Over 100 government employees and contractors have been fired for corruption since
25 then.
26

27
28 As if that was not bad enough, the investigators also detail the bribes that these politicians

NorCal 9th District – 6.16.22 – PLEADING FOR AID AND TO NOT DISMISS - CASE NO.: 3:22-cv-01107-WHA

1 took in order to harm you, and your companies, which were competing with the companies that
2 these politicians covertly owned. These bribes include: A.) Billions of dollars of Google, Twitter,
3 Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the
4 FEC; B.) Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search
5 engine rigging and shadow-banning which is never reported to the FEC; C.) Free office, airfield and
6 condo rent; D.) Male and female prostitutes; E.) Cars; F.) Dinners; G.) Party Financing; H.) Sports
7 Event Tickets; I.) Political campaign printing and mailing services "Donations"; J.) Secret PAC
8 Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take
9 Bribes; K.) "Consulting" contracts from McKinsey as fronted pay-off gigs; L.) Overpriced
10 "Speaking Engagements" which are really just pay-offs conduited for donors; M.) Private jet rides
11 and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); N.) Real Estate;
12 O.) Fake mortgages; P.) The use of Cayman, Boca Des Tores, Swiss and related money-laundering
13 accounts; Q.) Bribes to Stanford officials to admit their kids to college; R.) The use of HSBC, Wells
14 Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts;
15 S.) Free spam and bulk mailing services owned by Silicon Valley corporations; T.) Use of high tech
16 law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes
17 to officials; and other means now documented by forensic experts, FINCEN, The FBI, the FTC, The
18 SEC, The FEC and journalists.
19
20
21

22 By far, the biggest bribery tactic used by these people is stock market Dark Money
23 exchanges. Every One of these financial scam tricks (
24 https://www.sec.gov/files/Algo_Trading_Report_2020.pdf) is used daily by the suspects in this
25 case via their insider teams at Goldman Sachs, etc. We can all only hope that the Great Stock Crash
26 of 2022 wipes them all out as Karma for their abuses of Democracy.
27
28

Here are the stock manipulation tricks these politicians, and their families, use:

**** The Silicon Valley Stock Scam Called: "Pools"**

Agreements, often written, among a group of traders to delegate authority to a single manager to trade in a specific stock for a specific period of time and then to share in the resulting profits or losses."[5] In Australia section 1041B prohibits pooling. (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-5)

**** The Silicon Valley Stock Scam Called: "Churning"**

When a trader places both buy and sell orders at about the same price. The increase in activity is intended to attract additional investors, and increase the price.

**** The Silicon Valley Stock Scam Called: "Stock bashing"**

This scheme is usually orchestrated by savvy online message board posters (a.k.a. "Bashers") who make up false and/or misleading information about the target company in an attempt to get shares for a cheaper price. This activity, in most cases, is conducted by posting libelous posts on multiple public forums. The perpetrators sometimes work directly for unscrupulous Investor Relations firms who have convertible notes that convert for more shares the lower the bid or ask price is; thus the lower these Bashers can drive a stock price down by trying to convince shareholders they have bought a worthless security, the more shares the Investor Relations firm receives as compensation. Immediately after the stock conversion is complete and shares are issued to the Investor Relations firm, consultant, attorney or similar party, the basher/s then become friends of the company and move quickly to ensure they profit on a classic Pump & Dump scheme to liquidate their ill-gotten shares. (see P&D)

**** The Silicon Valley Stock Scam Called: "Pump and dump"**

A pump and dump scheme is generally part of a more complex grand plan of market manipulation on the targeted security. The Perpetrators (Usually stock promoters) convince company affiliates and large position non-affiliates to release shares into a free trading status as "Payment" for services for promoting the security. Instead of putting out legitimate information about a company the promoter sends out bogus e-mails (the "Pump") to millions of unsophisticated investors (Sometimes called "Retail Investors") in an attempt to drive the price of the stock and volume to higher points. After they accomplish both, the promoter sells their shares (the "Dump") and the stock price falls, taking all the duped investors' money with it.

**** The Silicon Valley Stock Scam Called: "Runs"**

When a group of traders create activity or rumours in order to drive the price of a security up. An example is the Guinness share-trading fraud of the 1980s. In the US, this activity is usually referred to as painting the tape.[6] Runs may also occur when trader(s) are attempting to drive the price of a certain share down, although this is rare. (see Stock Bashing) (https://en.wikipedia.org/wiki/Guinness_share-trading_fraud)

**** The Silicon Valley Stock Scam Called: "Ramping (the market)"**

Actions designed to artificially raise the market price of listed securities and give the impression of voluminous trading in order to make a quick profit.[7] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-7)

**** The Silicon Valley Stock Scam Called: "Wash trade"**

In a wash trade the manipulator sells and repurchases the same or substantially the same security for the purpose of generating activity and increasing the price.

**** The Silicon Valley Stock Scam Called: "Bear raid"**

In a bear raid there is an attempt to push the price of a stock down by heavy selling or short selling.[8] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-8)

**** The Silicon Valley Stock Scam Called: "Lure and Squeeze"**

This works with a company that is very distressed on paper, with impossibly high debt, consistently high annual losses but very few assets, making it look as if bankruptcy must be imminent. The stock price gradually falls as people new to the stock short it on the basis of the poor outlook for the company, until the number of shorted shares greatly exceeds the total number of shares that are not held by those aware of the lure and squeeze scheme (call them "people in the know"). In the meantime, people in the know increasingly purchase the stock as it drops to lower and lower prices. When the short interest has reached a maximum, the company announces it has made a deal with its creditors to settle its loans in exchange for shares of stock (or some similar kind of arrangement that leverages the stock price to benefit the company), knowing that those who have short positions will be squeezed as the price of the stock sky-rockets. Near its peak price, people in the know start to sell, and the price gradually falls back down again for the cycle to repeat.

**** The Silicon Valley Stock Scam Called: "Quote stuffing"**

Quote stuffing is made possible by high-frequency trading programs that can execute market actions with incredible speed. However, high-frequency trading in and of itself is not illegal. The tactic involves using specialized, high-bandwidth hardware to quickly enter and withdraw large quantities of orders in an attempt to flood the market, thereby gaining an advantage over slower market participants.[9] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-9)

**** The Silicon Valley Stock Scam Called: "Cross-Product Manipulation"**

A type of manipulation possible when financial instruments are settled based on benchmarks set by the trading of physical commodities, for example in United States Natural Gas Markets. The manipulator takes a large long (short) financial position that will benefit from the benchmark settling at a higher (lower) price, then trades in the physical commodity markets at such a large volume as to influence the benchmark price in the direction that will benefit their financial position.

**** The Silicon Valley Stock Scam Called: "Spoofing (finance)"**

Spoofing is a disruptive algorithmic trading entity employed by traders to outpace other market participants and to manipulate commodity markets. Spoofers feign interest in trading futures, stocks and other products in financial markets creating an illusion of exchange pessimism in the futures market when many offers are being cancelled or withdrawn, or false optimism or demand when many offers are being placed in bad faith. Spoofers bid or offer with intent to cancel before the orders are filled. The flurry of activity around the buy or sell orders is intended to attract other high-frequency traders (HFT) to induce a particular market reaction such as manipulating the market price of a security. Spoofing can be a factor in the rise and fall of the price of shares and can be very profitable to the spoofer who can time buying and selling based on this manipulation.

**** The Silicon Valley Stock Scam Called: "Price-Fixing"**

A very simple type of fraud where the principles who publish a price or indicator conspire to set it falsely and benefit their own interests. The Libor scandal for example, involved bankers setting the Libor rate to benefit their trader's portfolios or to make certain entities appear more creditworthy than they were.

**** The Silicon Valley Stock Scam Called: "High Closing (finance)"**

High closing is an attempt to manipulate the price of a security at the end of trading day to ensure that it closes higher than it should. This is usually achieved by putting in manipulative trades close to closing.

**** The Silicon Valley Stock Scam Called: "Cornering the market"**

In cornering the market the manipulators buy sufficiently large amount of a commodity so they can control the price creating in effect a monopoly. For example, the brothers Nelson Bunker Hunt and William Herbert Hunt attempted to corner the world silver markets in the late 1970s and early 1980s, at one stage holding the rights to more than half of the world's deliverable silver.[10] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-TEXAS-10) During the Hunts' accumulation of the precious metal, silver prices rose from \$11 an ounce in September 1979 to nearly \$50 an ounce in January 1980.[11] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-NYT-11) Silver prices ultimately collapsed to below \$11 an ounce two months later,[11] much of the fall occurring on a single day now known as Silver Thursday, due to changes made to exchange rules regarding the purchase of commodities on margin.[12] (https://en.wikipedia.org/wiki/Market_manipulation#cite_note-TimeBubble-12)

**** The Silicon Valley Stock Scam Called: "The Conduit Double Blind"**

In this scam, government money is given to a Tesla, Solyndra, etc. who then money launder the cash through executive-held 501 c3 and c4 charities; and company assets and then provide DARK MONEY cash and services to political campaigns like Obama and Clinton election funds. In the case of Tesla, Google (an investor and boyfriend of Musk) supplied billions of dollars of web search rigging. Stock ownership in the companies and deals is traded for campaign funds. David Brock is a master of this kind of Dark Money money-laundering for political campaigns using

1 PACS and pass-through spoofing. Tesla and Solyndra investors have used ALL of the above tactics
2 and more. Goldman Sachs and JP Morgan have thousands of staff who PROVIDE these stock
3 market manipulation tricks to people like Elon Musk, Larry Page, Eric Schmidt, et al. These kinds
4 of financial crimes and corruption account for the manipulation of over ONE TRILLION
5 DOLLARS of ill-gotten profits annually!

6
7 If you are a citizen: DEMAND THAT THE SEC BE GIVEN THE POWER TO ARREST
8 THESE CROOKS!
9

10
11 The next biggest bribe payment tactic is the character assassination of the politicians
12 opponents and competitors via "kill services".
13

14 **THE MEDIA ASSASSINS: POLITICAL KILL ORDERS AND STATE-SPONSORED**
15 **CHARACTER ASSASSINATIONS**
16

17
18 – How A Modern Character Assassination and Political “Kill Order” Is Executed By the
19 Silicon Valley Oligarchs and their total control of propaganda media. Patrick George At Jalopnik
20 attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance
21 oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik
22 uses their financial partnership with the DNC’s Google to push the character assassination articles
23 to the top of Google web products and searches.
24

25
26 ---- Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually
27 degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created
28 the Fake News crisis in the media by flooding the internet with defamation posts and reprisal

1 hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large
2 number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York
3 Times and other propaganda outlets. These Millennial boys are “Media Rapists” and should be
4 treated as abusers.

5
6 – How and why did a Donald Trump stripper-date named “Stormy” or an Elon Musk sex
7 party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit
8 the news at about the same time in news history?
9

10
11 – In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to
12 end people’s lives in other creative ways.

13
14 ---- It is all part of the modern trend in vendetta, revenge and political payback when a
15 Senator or a tech oligarch issues a “kill order” on an opponent. – The client does not like to get their
16 hands dirty so the actual social hit job is performed by companies such as: IN-Q-Tel – (DNC);
17 Gawker Media – (DNC); Jalopnik – (DNC); Gizmodo Media – (DNC); K2 Intelligence – (DNC);
18 WikiStrat – (DNC); Podesta Group – (DNC); Fusion GPS – (DNC/GOP); Google – (DNC);
19 YouTube – (DNC); Alphabet – (DNC); Facebook – (DNC); Twitter – (DNC); Think Progress –
20 (DNC); Media Matters – (DNC); Black Cube – (DNC); Mossad – (DNC); Correct The Record –
21 (DNC); Sand Line – (DNC/GOP); Blackwater – (DNC/GOP); Undercover Global Ltd (DNC/GOP)
22 Stratfor – (DNC/GOP); ShareBlue – (DNC); Wikileaks (DNC/GOP); Cambridge Analytica –
23 (DNC/GOP); Sid Blumenthal- (DNC); David Brock – (DNC); PR Firm Sunshine Sachs (DNC);
24 Covington and Burling – (DNC), BuzzFeed – (DNC) Perkins Coie – (DNC); Wilson Sonsini –
25 (DNC) and hundreds of others...These are the people and companies that except cash, revolving
26 door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes
27
28

1 and real estate in exchange for destroying the lives of others.
2

3 – These attackers deserve to be punished for the rest of their lives for taking away the lives
4 of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins
5 should be forced out of business.
6

7
8 ---- These attack services are responsible for 90% of the “Fake News” problem in the world
9 because they are the authors of most fake news. Congress must act to make these kinds of
10 companies illegal! – These digital assassination services offer hit-jobs, character assassinations and
11 economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge,
12 retribution and vendetta executions.
13

14 – In the case of reporters getting targeted for attacks, President Donald Trump has been
15 accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while
16 CNN’s Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian
17 extrajudicial measures that Barack Obama and his administration used to target them for exposing
18 truth.
19

20
21 – This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA
22 supporter Ben Rhodes was running “Operation Echo Chamber,” which reportedly continues, in
23 which he fed information to willing corporate media scribes. “They literally know nothing,” Rhodes
24 said of the twentysomething journalists he easily manipulated.
25

26
27 ---- The Freedom of the Press Foundation’s Trevor Timm published documents showing
28 how former attorney general Eric Holder changed the rules to more effectively intimidate and

1 surveil members of the press.

2
3 – Timm writes: “Today, we are revealing—for the first time—the Justice Department’s rules
4 for targeting journalists with secret FISA court orders. The documents were obtained as part of a
5 Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First
6 Amendment Institute at Columbia University.”

7
8
9 – Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President
10 Trump’s team, as evidenced by Peter Strzok and Lisa Page’s texts confirming that Obama was
11 overseeing their fly-by-night operation.

12
13 – Larry Schweikart reported for Big League Politics: For months pundits and researchers
14 have been pondering the mystery of the FISA approval that led to the illegal and historically titanic
15 scandals to ever hit the U.S. government.

16
17
18 ---- Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was
19 bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about
20 the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that
21 Mueller was fooled by the FBI. This is what President Trump calls “SPYGATE”. – It may well be
22 that the surveillance that was conducted began with UK intelligence services and then was fed back
23 to the White House of Barack Obama. Here’s the kicker: President Barack Obama did not need a
24 FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had
25 legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802,
26 the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person
27 (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile
28

1 acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information
2 relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such
3 an authorization by Obama required certification by Attorney General Loretta Lynch that must be
4 logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the court [FISC]
5 a copy of his certification.”)

6
7
8 – In short, the DOJ has this. If we are correct, a copy of that certification is currently under
9 seal at least with the DOJ and the FISC.

10
11 – This is what they are hiding. – However, the Act requires the AG to keep the Select
12 Committee on Intelligence and the Senate Committee on Intelligence informed of these
13 authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did
14 Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies?
15 Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

16
17
18 – These are the playbook tactics that Senators and tech oligarchs most often use to destroy
19 the lives of their political and business enemies: – Government agency bosses sometimes solicit the
20 target victims with false promises of future loans, contracts or grants from their agency and cause
21 the target victims to expend millions of dollars and years of their time for projects which those
22 government bosses had covertly promised to their friends. They use the target victims as a
23 “smokescreen” to cover their illegal government slush-funds for the victims competitors and
24 personal enemies.
25

26
27 ---- By using this tactic, the attackers can drain the target victims funds and force them into
28 an economic disaster in plain view of everyone without the government bosses fearing any reprisal

1 for their scam.- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all
2 other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had
3 their profiles, texts, and inter-member communications, since those companies were started, hacked
4 or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software
5 to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion
6 and social conflict exploitation opportunities.

7
8
9 If you had a bad date with someone, that someone will be hunted down and convinced to
10 help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the
11 likelihood that a sexual disappointment experience will exist in each persons dating history is high.
12 Searching every past dating email and text of a subject is quite easy with modern software and
13 hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any
14 target. Your dating experiences from the 70's or 80's will come back to haunt you decades later.
15 Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual
16 skills your bad date will be called "date rape", "drugging your date for sex" and related twisted
17 narratives that are designed to shame you, the target.
18

19
20 ---- If you try to get a date in the future, your potential date will be contacted by a third party
21 who will slander and libel you to make sure your potential first date gets cancelled. Your social life
22 will, essentially, end. Every photo on every dating site is cross checked with every other photo on
23 the internet in order to cull your Facebook, Linkedin, Snapchat and other social media together to
24 create a total psychological manipulation profile data file on you. A single photo on a dating site
25 can be cross searched on every mugshot archive, photo album and corporate database in the worth
26 within minutes using modern super-computers. Your sex life will be on public record in a flash.-
27 Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of
28

1 targets are “lost”.
2

3 ---- Files in the application process “disappeared”. Lois Lerner hard drive “incidents” are
4 operated in order to seek to hide information and run cover-ups.
5

6 – Government officials and tech oligarchs contact members of the National Venture Capital
7 association (NVCA) and created national “black-lists” to blockade target victims from ever
8 receiving investor funding. This was also confirmed in a widely published disclosure by Tesla
9 Motors Daryl Stry and in published testimony. If Silicon Valley political campaign finance
10 oligarchs black-list you (see the “AngelGate” Scandal and the “High Tech No Poaching Class
11 Action Lawsuit” cases) you will never get investor funding again.
12
13

14 – FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially
15 responded to in order to seek to hide information and run cover-ups.- State and federal employees
16 will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that
17 they, the government officials, had stonewalled and obfuscated applications for, in order to force
18 these deadlines that they set, to appear to be missed. This can bankrupt a target victim.- Some
19 Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case.
20
21

22 ---- Heavy metals and toxic materials were found right after their work with the Department
23 of Energy weapons and energy facilities. Many wonder if these “targets” were intentionally exposed
24 to toxins in retribution for their testimony. The federal MSDS documents clearly show that a
25 number of these people were exposed to deadly compounds and radiations, via DOE, without being
26 provided with proper HazMat suits which DOE officials knew were required.
27
28

NorCal 9th District – 6.16.22 – PLEADING FOR AID AND TO NOT DISMISS - CASE NO.: [3:22-cv-01107-WHA](#)

1 – Victims employers are called, and faxed, and ordered to fire target victims from their
2 places of employment, in the middle of the day, with no notice, as a retribution tactic. – On orders
3 from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo
4 Media produce attack articles and defamation videos. Google locks this attack media on the internet
5 on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people,
6 around the world.

7
8
9 ---- This attack-type uses over \$40 million dollars in server farms, production costs and
10 internet rigging. The forensic data acquired from tracking some of these attacks proves that Google
11 rigs attacks against individuals on the internet and that all of Google’s “impressions” are manually
12 controlled by Google’s executives who are also the main financiers and policy directors of the
13 Obama Administration. This data was provided to the European Union for it’s ongoing prosecution
14 of Google’s political manipulation of public perceptions. – Victims HR and employment records, on
15 recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim
16 targets from ever gaining future employment. – Gary D. Conley, Seth Rich, Rajeev Motwani and
17 many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very
18 possible that some of these attack services, operated by former CIA operatives, even offer discrete
19 murder-for-sale services using high-tech assassination tools that make murders look like heart
20 attacks and brain failures.

21
22
23
24 ---- Disability and VA complaint hearings and benefits are frozen, delayed, denied or
25 subjected to lost records and “missing hard drives” as in the Lois Lerner case.- Paypal (A DNC-
26 biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden,
27 or re-directed in order to terminate income potential for target victims who competed with the
28 attackers interests and holdings.- DNS redirection, “website spoofing” sends target victims websites

1 to dead ends where no sales orders or customer inquiries actually get back to the target. These
2 internet revenue activity manipulations are conducted using Google and Amazon servers. All
3 commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden,
4 or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto,
5 California in order to terminate revenue potentials for the target victims.

6
7
8 ---- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place
9 defamatory statements and disinformation about victims in front of 7.5 billion people around the
10 world on the internet in order to seek to damage their federal testimony credibility by a massively
11 resourced facility.

12
13 – Campaign finance dirty tricks contractors are hired by campaign financiers to attack the
14 friends and family members of the target victim in order to create low morale for the target victims
15 psyche and motivation.- Are you getting weird headaches and hearing a “buzzing sound” in your
16 head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy
17 “sonic attacks” are from a known microwave beam weapon. Any one of the technical departments
18 of the attack services listed at the top of this article can build such a biological harassment weapon.
19

20
21 ---- It can be aimed at the target victims office, bedroom or vehicle and, within a week, have
22 caused biological and emotional damage using a weapon that has no visible track of trajectory. It is
23 designed to make the target victim think they are “going crazy” or “hearing sounds in their head”.
24

25
26 ---- In one case covert political partner: Google, transferred large sums of cash to dirty tricks
27 contractors and then manually locked the media portion of the attacks into the top lines of the top
28 pages of all Google searches globally, for years, with hidden embedded codes in the links and web-

1 pages which multiplied the attacks on Victims by many magnitudes.- Covert Cartel financier:
2 Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn,
3 stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-
4 supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted
5 for the vast patent thefts that Google engages in.

6
7
8 ---- Google has hundreds of patent lawsuits for technology theft and a number of those
9 lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government
10 Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google,
11 "essentially" ran the Obama White House and provided over 80% of the key White House staff. A
12 conflict-of-interest unlike any in American history. Google's investors personally told Applicant
13 they would "kill him". Google and the Obama Administration were "the same entity". Applicant
14 testified in the review that got Michelle Lee terminated and uncovered a tactical political and social
15 warfare group inside Google who were financed by Federal and State funds.

16
17
18 ---- Honeytraps and moles were employed by the attackers. In this tactic, people who
19 covertly worked for the attackers were employed to approach the "target" in order to spy on and
20 misdirect the subject. – Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media
21 assassins will be retained to produce "hatchet job" character assassination articles about you. Then
22 those articles will be faxed, mailed and emailed to your employer and investors with a note saying:
23 "You don't want to have anything to do with this person, do you..?" in order to get you fired from
24 your job and get your loans or financing pulled. The attackers will use their round one attack media,
25 that they authored, to create a round two second wave attack designed to end your life via economic
26 warfare.
27
28

1 ---- Mortgage and rental applications will have had red flags added to them in databases to
2 prevent the targets from getting homes or apartments.- Krebs On Security, Wired, Ars Technica,
3 The Wall Street Journal and most major IT publications have reported that hundreds of spy “back-
4 doors” have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks
5 motherboard, chip-set and hardware component set.

6
7 ---- This means that any kid with the “key” code can open any computer, server, router,
8 cloud-network or other network connected device and read every file, photo, video, your calendar
9 and email on your devices at any time from any location on Earth. The key codes have been
10 released to every hacker community in the world for over ten years. There is now no government,
11 corporate or personal data that can’t be hacked, even data from decades ago.

12
13
14 Every single one of your darkest secrets can be in the hands of your enemy within 60
15 minutes, or less. Important meetings you had planned with potential investors, employers, clients,
16 dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled
17 because your enemies are reading your calendar remotely and covertly sending slander information
18 to those you had hoped to engage with in order to sabotage your life.

19
20
21 ---- Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired
22 and it WILL be used against you.

23
24
25 – McCarthy-Era “Black-lists” are created and employed against target victims who
26 competed with Obama Administration executives and their campaign financiers to prevent them
27 from getting funding and future employment.

NorCal 9th District – 6.16.22 – PLEADING FOR AID AND TO NOT DISMISS - CASE NO.: [3:22-cv-01107-WHA](#)

1 – Obama Administration targets were very carefully placed in a position of not being able to
2 get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The
3 retribution tactics were audacious, overt..and quite illegal.

4
5 – There are thousands of additional Dirty Tricks tactics being used by these Attack Services
6 yet Congress refuses to pass laws out-lawing such attack services.

7
8
9 ---- The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00.
10 While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any
11 regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest
12 version of one of these “kill orders”.

13
14 ---- A number of modern office shootings are the results of these attacks against an
15 individual who has lost everything because of the attack and has no options left. – Federal law
16 enforcement, the United States Congress and the highest level investigators in the U.S., and abroad,
17 have documented (per the “FISA Memo”, Congressional Reports and federal employee testimony)
18 and proven the fact that the Obama Administration regularly engaged in the operation of retribution,
19 vendetta and reprisal campaigns known as “hit-jobs” against domestic natural born U.S. citizen
20 domestic taxpayers.
21

22
23
24 ---- The Federal Court, in at least one previous court case,has ruled that Applicants, in this
25 particular matter, were the victims and target of a number of these attacks designed to inflict
26 permanent medical, emotional, character assassination, brand negation, economic and career
27 damage. The FBI has been asked to interview John Cook, Nicholas Guido Denton, Adrian Covert,
28 Patrick George, Ian Fette and John Hermann of Gawker/Gizmodo re: their financing, payola and

hit-job attacks on third parties.
